3 March 69

STAT

[redacted] STATINTL

[redacted] STATINTL

1. Determine the depth measured from the existing floor level to the top of the concrete footings under the equipment area as defined by design work being performed under the initial job order. The area is bounded by column lines M, J, 11 and 12 on the first floor, room 1/20. Expose footings without penetrating.
2. Deadline: 21 March 1969. The architect-engineer must have this information to remain on project schedule. STATINTL
3. Utilize a portion of the [redacted] conveyed [redacted] STATINTL
dated 25 October 1968.
4. For further information, contact [redacted] STATINTL
[redacted] STATINTL

This copy of order must be returned to the Space Maintenance and Facilities Branch — 1-J-45 — Hdqrs., immediately upon receipt of articles listed hereon, or when service has been rendered.
